

CRC Stakeholder Engagement Programme

The Carbon Reduction Commitment Energy Efficiency Scheme (CRC EES) is a UK-wide mandatory carbon emission trading scheme for large businesses and public sector organisations. It is based on a 'cap and trade' mechanism, providing a financial incentive to improve energy efficiency by putting a price on carbon emissions from consumption.

With the scheme already underway and registration required by 30th September 2010, getting data management, auditing and low carbon performance strategies in place is now crucial. In the medium term organisations need to prepare now to monitor and forecast emissions accurately and purchase/trade sufficient allowances. In addition, the financial implications and risks associated with the scheme need to be understood and managed.

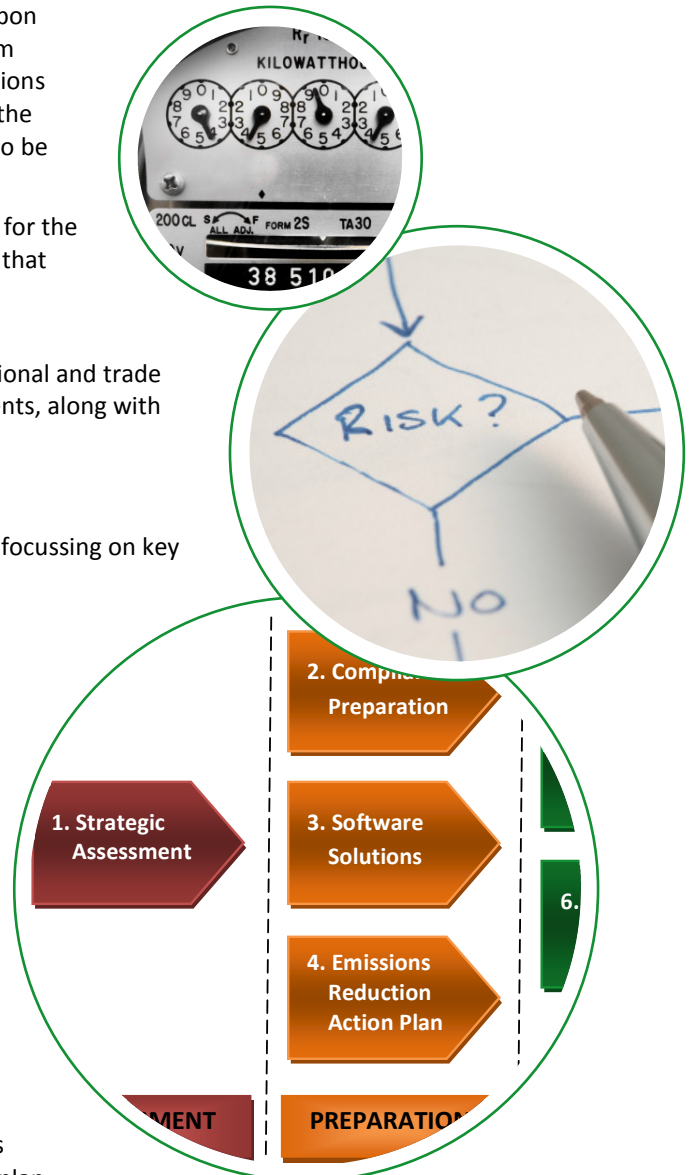

In order to prepare you for the scheme and assess your readiness for the CRC, Green Energy Partners have designed a one day programme that introduces the stakeholders to the CRC, informs about strategic considerations and assesses your organisation's readiness.

Our senior consultants have provided CRC workshops for professional and trade institutions, NHS, Local Authorities, industrial and commercial clients, along with investment organisations.

PROGRAMME SCOPE

The scope of the one day programme is designed as an overview, focussing on key information and key stakeholders. Each step can be tailored to your organisation's requirements and your sector.

- Step 1 Initial Assessment/CRC health check**
- Key risks & competencies
 - Availability, robustness and management of data
 - Financial exposure
 - Organisational structure and responsibilities
- Step 2 Stakeholder Review Workshop**
- Introduction to CRC
 - Your organisation's readiness
 - Where you need to get to
 - Management of compliance & performance risk
 - Overall carbon governance
- Step 3 Development of next steps action plan**
- Compliance preparation
 - Responsibility plan
 - Strategic and operational action plan
 - Data management
 - Software solutions
 - Carbon reduction plan
 - Early Action Metrics
 - Registration support

At the end of the workshop participants will be provided with a stakeholder information pack.

COST AND AVAILABILITY

The cost of the one day CRC Stakeholder Engagement Programme is priced at **£625** (plus VAT) plus incurred travel expenses.

Availability is flexible to suit your needs. We understand that bringing together key stakeholders can be a difficult task and can arrange the workshop as a lunchtime, morning or afternoon session, depending on your preference.

To arrange a workshop please contact us on:
